### RECOMMENDATIONS FOR USE:

The first 6 days of the fortnight: 1 x 4 ml dose per day to be diluted in a glass of water, preferably in the morning during breakfast time.

### CLAIMS:

Thanks to their anti-oxidative activity, the polyphenols in green tea contribute to the protection of cells against free radicals. Green tea leaf extract helps to stimulate the oxidation of fat. Artichoke leaves may help to reduce the level of fat in the blood and to promote weight loss. Magnesium and vitamin B6 contribute to reducing fatigue and to the proper functioning of the nervous system. Vitamin B6 contributes to maintaining a normal energetic metabolism and to the proper functioning of the immune system. SVETOL® contributes to weight maintenance by reducing the release of sugar into the blood.
